SOFT MODULAR PLAY

Soft modular play is often installed in the recreational play zones and commercial centers and any business that wants to attract families and kids. Soft play system is designed to provide toddlers and kids with not only amusement and fun, but also knowledge and social skills.

Hundreds of playing elements are available in our indoor playgrounds, such as slides (wave slide, donut slide, tube slide, drop slide, spiral slide), ball pit, fun ball battle (ball blaster), trampolines, spider tower, bridge, web crawl, tube crawl, various obstacles and so on. These play attractions are good enough to generate high play value to your play centers and well able to main kids' interest for a long time and get you repeat business.

Our talented designers are very creative and good at making any design or theme. It's a great thing that you have one-of-a-kind theme for your play center.

Standard, fully custom, or a mixture of both types of indoor playground equipment are all available. No matter you have a small or big budget, our budget-conscious designers are always capable of designing your soft play structure in a professional and economic way.

We're committed to providing an unforgettable, safe and fun experience where kids can stay active and use their imagination as they play and explore. Safety is our number one priority. Our certified safety inspectors ensure that each of our play attraction adheres to rigorous international safety standards.

All of our designs comply with, meet, or exceed EN1176-77, ASTM 1918-12, GB/T 34272 and AS3533.4.2 standards for contained playground equipment for Europe, United States, China and Australia respectively. For United States, they are ASTM and ADA compliant for international installations where applicable.
As indoor playground equipment manufacturer, we don't stop at soft playground design, we also handle the manufacturing, shipping, and installation of your playgrounds—which means you'll receive a turn-key solution from us and run your business in a worry-free way.

NINJA WARRIOR

All Obstacles are devised to ensure maximum strength, produce flexibility, develop skills, and safety. Ninja Warriors need first and foremost a lot of upper body strength and endurance, explosiveness, and great grip strength.

Participants with good skills and strength concentrate on becoming like a monkey that can swing from branch to branch. Obstacles of increasing difficulty cater for a wide age range of users, from children to adults.

Ninja warrior usually comes with strong frame to support these obstacles. The frame can be made from either aluminum or box steel.

CLIMBING WALL

Climbing walls are mainly designed for kids for recreational training purpose. They are more often than not used for indoor climbing and also sometimes for outdoor climbing. They are designed and made under the guidance of experienced designers and deft professionals.

Both children and adults can be engaged in the challenge of climbing and the fun of play. Colorful and dynamic, our fun walls for kids bring users to a world of climbable skyscraper, African forest, book house, deep space and many more. Climbing walls provide additional revenue stream like birthday celebration packages, team-buildings, corporate kids parties and other.

Provided climbing walls for kids have gained great popularities in market due to their nice patterns and colors, excellent tensile strength, smooth finish and rugged construction.

As climbing wall supplier, we also offer our clients worldwide customized options in terms of patterns, colors, height, width and even materials at reasonable market prices.

VOLCANO SLIDES

play centers, volcano slide always receive kids' attention at the first sight. They cannot wait to climb up to the top and slide down to get fun, and cannot help doing this again and again.

3 types of volcano slides are available at Play Standard and they are 90 degree, 180 degree and 360 degree. No matter which one you choose to fit in your site, it'll become a "Super Star" and attract kids eyes immediately with its unique shape and beautiful artwork. Volcano slide can come with either stainless steel slide or tube slide made of plastic to meet your budget well.
